Into the Home Stretch

The library project is moving ahead! On April 23, we celebrated the official unveiling of our latest concept drawings of the new Shepherdstown Public Library and Resource Center. The unveiling event provided a fantastic opportunity for residents to see design drawings and speak directly with the library's project architect. Our visitors were able to take a virtual tour of the new library, and kids were entertained with Lego library building, balloon animals, and face painting. [Read more about it!](#)

Drop by the existing library to view building designs and take a virtual tour of the new facility. More detailed information about the library project and a chronology of events can be found on the [library's website](#).

Current project timeline:
Initial site work to begin in the spring of 2018.

National Library Legislative Day

On May 2, librarians from across the state traveled to Washington, DC to meet with our elected officials to request their support and full funding for critical federal library programs.
